Modified versions of the game’s resource files are always forbidden, regardless of what they do. The use of any forbidden program or file by any team member during a match leads to a forfeit loss and could lead to a removal and ban from the tournament.

Use of Third-Party Software

The use of any third-party addons, hooks, programs, or wrappers that interact with or alter the game, its appearance, or behavior for the purposes of gaining an unfair advantage is prohibited. Exceptions: Third-party voice communication software such as (but not limited to) Teamspeak are allowed.
